Berries on Bryan Station Farm

“Better Food for a Healthier You”

Welcome to your sixteenth basket pickup. We are thankful for another bountiful week. Here is what we have for you this week:

Raspberries

We have had several members enjoy picking both red and yellow raspberries. Picking days will be continue to be Tuesday, Thursday, Friday and Sunday each week for as long as the berries last. Picking times will be from 4 to 8 p.m. each day. Thanks to Larry Leach and Barb Fischer for picking extra berries for other members.

Tomatoes

This week will likely to be the last for this delightful veggie.

Green Beans

We have pickings from a fresh row of roma beans.

Choice Table

The choices this week include Eggplant, Okra and Cabbage.

Peppers

This is an especially good week for bell and sweet banana peppers. They are so pretty and colorful to look at also.

Herbs

Basil is bountiful this week and ohh so fragrant.

Cut Flowers

Gloriosa daisies and colorful zinnias will be cheering up your home this week.

Leaf Lettuces

I found a small section in the melon patch that flew under our radar.

Members of the Week

- Special thanks to members Tammi and John Cox for donating a refrigerator to keep the raspberries cool! Tammi saw me sweating profusely one week and next thing I know they gave us an above-ground pool to cool off in!!

Us boys enjoyed it right away. John and Tammi also volunteered to help pick veggies, put baskets together and greet customers today. I am short-handed since Gayle is in Texas on business, so this help is timely. Here's a big THANK YOU to John and Tammi. By the way, they have their own heating and cooling business that you may want to use. It is called Climate Solutions. They have the solutions to all of your heating and air conditioning and electrical needs. They service and install all brands of equipment.

You can reach them at: (859)585-9944.

- * Member Mark Taulbee donated loose straw that we put around the strawberry patch. Thanks Mark! He delivers hay as a business in case you need some.

On the Menu for Next Week

We have already picked the melon patch for next week's baskets. There are lots of ornamental gourds, pumpkins, butternut squash and birdhouse gourds. We also have dried shallots and onions. Yukon Gold potatoes also look excellent. Still to harvest include peanuts and sweet potatoes. Please remember that our picnic is on Saturday, September 30th at 4 p.m. The last pickup days will likely be the previous week on September 28th and 29th.

Thank you for your support. See you next week,

Erik Walles & Family (Gayle, Brett & Grant)
And members John and Tammi Cox
